Declaration of using generative AI tools (for students)

Declaration of using generative AI tools (for students)
☒ **I/we have used generative AI as an aid/tool** *(please tick)* ☐ **I/we have <u>NOT</u> used generative AI as an aid/tool** *(please tick)* *If generative AI is permitted in the exam, but you haven't used it in your exam paper, you just need to tick the box stating that you have not used GAI. You don't have to fill in the rest.*
List which GAI tools you have used and include the link to the platform (if possible): *GitHub Copilot with Inline Autocompletion (Copilot Student licence)*
Describe how generative AI has been used in the exam paper: **The tool was used for quickly generating boilerplate code, since many rows of comparisons, input, or output require very similar code, often just with modified values/keys. The tool had no impact on creative decision-making. Further, it was used (or generally helps) as aid to keep syntax correct, as even though it doesn't always write what you had in mind, it will almost always be syntactically correct code.** *Please note:* Content generated by GAI that is used as a source in the paper requires correct use of quotation marks and source referencing. Read the guidelines from Copenhagen University Library at KUnet here.
